

NIBU THOMAS

(Full Stack Developer)

(Email: mr.nibuthomas@gmail.com)

(Website: <https://mrnibuthomas.github.io>)

(Phone: +81-7083427772)

OBJECTIVE

To strive for excellence in the field of software development – with dedication, focus, proactive approach, positive attitude and passion; and to utilize my knowledge and skills in the best possible way for the fulfillment of organizational goals.

SUMMARY

- ☐ Master's Degree in Computer Application (MCA) from Mahatma Gandhi University.
- ☐ Bachelor of Computer Application (BCA) from Mahatma Gandhi University.
- ☐ 7+ years of experience in reputed companies as a Full Stack Developer(SQL & C#)
- ☐ Good communication and analytical skills.
- ☐ Certified AWS cloud practitioner.

ACADEMIC PROFILE

- ☐ Master's Degree in Computer Application (MCA) from Mahatma Gandhi University (2013-2016) Kerala, India.
- ☐ Bachelor of Computer Application (BCA) from Mahatma Gandhi University, Kerala, India.(2010-2013)
- ☐ Higher Secondary from Board of Higher Secondary Education, Kerala, India.
- ☐ I have N3 level of Japanese Communication.

WORK EXPERIENCE

❖ Cognizant Japan KK, Tokyo, Japan

Working as a Full stack Developer (Oracle, C#.Net) from **May 2021**.

Application Description: **REBATE** is an application supports wholesalers to apply for the rebates and then calculates the value of rebates they are eligible. It loads the source data such as ex-wholesaler sales transaction data (NHI, JD-Net), customer profile information (DCF, Ultmarc, and HCF) via Open Prism application. Based on the input configurations for rebate calculations and raw data loaded through Open Prism, it creates the data marts and calculates the rebate amounts, The calculated rebate values are interfaced to SAP P60 application for further processing.

RESPONSIBILITIES

- ☐ Helps with design and development of software and participates in design review and architecture meetings.
- ☐ Design & code UI Screens/interfaces.
- ☐ Migration of application to latest technologies.
- ☐ Build the front-end of applications through appealing visual design.
- ☐ Write technical documentation.

Application Description: MAXIM is a pharmaceutical commercial application which holds Sales & Marketing data of Japan. This application contains many KPI reports which helps to provide better insights, analysis and fact-based decision making to increase Commercial effectiveness. This will be implemented through a single, global data warehouse providing one version of the truth consistently from Executives to the Sales representatives.

RESPONSIBILITIES

- ☐ Design and Execution of application into latest technologies.
- ☐ Provide an effective solution to business problems.
- ☐ Migration of application to latest technologies.
- ☐ Analyze application data to assess performance and uncover problems.
- ☐ Testing and fixing bugs or other coding issues
- ☐ Troubleshoot and resolved application issues escalated from end users.

❖ HUMAN RESOCIA, TOKYO, JAPAN

Worked as an Application Developer (SQLite, C#.Net) from **February 2020 to May 2021.**

Project Description

REVIT API Development: In the next-generation collective design system (hereinafter, DiMAS), The processing time of the high load function and the local PC, when executing the high load function, there is a problem to occupy. The purpose of developing this function is to implement high-load functions and Time to occupy a local PC by processing in the cloud is to reduce.

RESPONSIBILITIES

- ☐ Developing and directing software system validation and testing methods.
- ☐ Research, suggest and implement new solutions in performance of backend services.
- ☐ RDBMS experience includes MSSQL ,MySQL, SQLite and programming using PL/SQL
- ☐ Be ready to learn and adapt to new technologies in a fast-paced cloud environment.

✳ Softgainz Technologies Pvt LTD, Mumbai, India

Worked as a Full Stack Developer from **December 2018 to August 2019**

Project Description

1. Invesco India Mutual Fund: Led front-end development and with back-end programming for website overhaul. Consume various Restful WCF service for personalized recommendations and segmentation.

2. **PMS India** : Collaborate with internal teams to produce software design and architecture. In this project I wrote functional code both backend and frond end with a sharp eye for spotting defects.

RESPONSIBILITIES

- ☐ Hands on Experiencing MS SQL technology like (Crud ops, Indexing Replication, aggregation and various ops manager activity)
- ☐ Writing the stored procedures and java scripts
- ☐ Reporting the status and progress of Interface related activities on regular basis to Onsite and offshore leadership
- ☐ Performed SQL query performance by creating /modifying indexes ,setting transaction isolation levels, and changing query structures(used CASE to reduce table scans/seek, used temp tables to reduce repeating retrieving, etc).
- ☐ Optimized SQL queries.

❖ F FOR F GROUP, KERALA, INDIA

Worked as an Intermediate Back end Developer from **October 2016 to October 2018**

Project Description

1. **eSigner**: Developed console application for fetching PDF documents to sign using digital signature and encrypt the file with password protection to send various clients.

Tools used: SQL Server Management Studio, Asp.Net, Windows services, MS SQL.

2. **M3C**: Multi channel mail system for sending various email such as promotional , transactional to respective clients and ensured the technical feasibility and optimum functionality.

Tools used: PostgreSQL, SQL CMD, SQL Server Data Tool, C#.Net, MVC, jQuery, Ajax

3. Web Developer with experience in designing and developing Back end structure, user interfaces, testing, debugging. Fixed bugs from existing websites and implemented enhancements that significantly improved web and DB functionality as well as speed.

RESPONSIBILITIES

Planning and Deployment of software Releases

- ☐ Provide ongoing application support and troubleshooting
- ☐ Reporting the status and progress of Interface related activities on regular basis to Onsite and offshore leadership
- ☐ Modification of existing software to improve its performance.
- ☐ Participated in database schema design and creating stored procedure and views in SQL Server.
- ☐ Design, develop, troubleshoot, debug, test, ensure browser compatibility, and implement website code by using Microsoft SQL Server and Microsoft .NET, C#, and ASP.NET MVC.

TECHNICAL SKILLS

<input type="checkbox"/> Asp.net	JavaScript	jQuery	Ajax	Oracle	WCF
<input type="checkbox"/> C#	MS SQL	XML	PostgreSQL	Rest API	MVC
<input type="checkbox"/> SQLite	Web service	AWS	C	C++	SVN ADO.NET
